Optoma is excited to announce their new, first-of-a-kind in the industry ultra-bright fixed lens laser projectors; the **ZU920T** standard throw and **ZU920TST** short throw projectors!

Optoma's ZU920TST award-winning WUXGA ultra-bright fixed lens, short-throw, and ZU920T standard throw laser projectors are small, compact projectors that still pack a punch at **9,800 lumens**. Both are **4K and HDR compatible** and quite affordable!

High brightness, color precision, and quiet operation make these projectors ideal solutions for various end-user scenarios and professional environments, such as digital signage, edge-blending, and projection mapping, simulation, and immersive installations.

The added control flexibility of **HDBaseT and LAN** makes these projectors affordable and easy to use. They both feature dust-resistant IP5X certified optical engines for 24/7 operation capabilities, offering true maintenance-free projection for up to 30,000 hours of powerful performance in Eco mode. Other features include **motorized zoom, full motorized lens shift, and built-in dual 10W speakers**.
