ClickShare. Love meeting.

Over the past 2 years, the simplicity and intuitiveness of ClickShare Conference have made the hybrid meeting experience better. In more than 1 million meeting rooms around the globe, we have helped workers become more productive and engaged in their video meetings.

When everyone is clearly heard and seen, people feel more involved. ClickShare facilitates collaboration instead of complicating it. You can use your existing meeting room equipment, your laptop, and your trusted video conferencing platform. In any type of meeting room. And your guests can securely join with any device. No hassle with control panels, passwords, or cables.

HOST FROM LAPTOP – All it takes is one click to wirelessly start a video meeting from your laptop with any UC&C solution. Switch platforms easily. Enjoy the same consistent user experience with the ClickShare Button or App, even when with guests.

HYBRID COLLABORATION – Turn any room into a hybrid collaboration room overnight and equalize the meeting experience for everyone, no matter where they are located.

WIRELESS – Present & collaborate from your laptop in any room without cable hassle. Button or App, you decide. Smart meeting flows guide you to an intuitive experience.

ONE-CLICK TO CONNECT – Walk in and instantly connect to the room set-up from your laptop. Start within seconds with one-click collaboration with the ClickShare Button or App.

TECH-AGNOSTIC – Seamlessly works with your device, your UC&C platform and compatible solutions from global partners and brands. Use as digital signage player to impress, inform and inspire.

ENTERPRISE-READY – Secure, networked and cloud-managed, ClickShare is an IT-friendly, ISO27001 certified solution. Packed with up to five years of coverage, access to insight and analytics, and regular software updates.

Premium wireless conferencing for high-impact rooms

The ClickShare **CX-50 2nd generation** is the premium ClickShare Conference model, designed to enable better decision-making and collaboration in high-impact meeting rooms.

- › Dual screen support ensures remote participants are always visible on screen, ensuring an equitable experience for everyone.
- › Ability to easily switch between a fixed room setup and other videoconferencing solutions.
- › A single USB-C cable between the Base Unit and room display to power the device and send video output to the display simplifies connectivity.
- › XMS Cloud Management Platform provides easy management of units, intuitive user experiences and clear analytics to drive the digital workplace.

Smart meeting workflows

ClickShare intent-based features make any hybrid meeting a highly intuitive, stress-free experience.

- › **Room Availability** – Immediately see if the room is available or not
- › **PresentSense** – Automatically connect to the meeting room via App or Button
- › **HostFlow** – Guided participation for host and participant
- › **One-Click Join** – Join from your personal calendar
- › **Advanced Sharing** – Share content while keeping your laptop screen private
- › **Conference View** – Keep remote participants' video on screen while sharing
- › **Digital Signage** – Display digital signage via XMS Cloud

Cloud-monitoring, management and analytics for your workplace

The challenge to easily maintain, manage, and monitor devices remotely is perfectly addressed by **Barco's XMS Management Platform**. It provides an easy-to-use interface for remote and reliable device management to guarantee the user experience and brings useful analytics to drive the Digital Workplace.

- › Insights on workspace occupancy and remote collaboration, adoption of collaboration experiences like touch functionalities and BYOD.
- › Personalized view on availability and utilization of all your Base Units and meeting spaces allowing data-driven decisions for optimizing the workspace capacity.
- › Notifications allow swift troubleshooting, even before users are aware of an issue.
- › Upgrade to the most recent firmware to benefit from the latest functionality & features.
- › Extensive threat modeling, setting security baseline requirements, vulnerability management and penetration testing ensure a highly secure solution for remote device management.

Boost your profitability with Barco's ClickShare Trade In Program

Instead of investing in lead generation programs, realize the benefits of your existing install base sales potential.

Receive exclusive discounts when you upgrade legacy ClickShare or competitive devices to the newest generation of ClickShare technology. Barco's Trade-In program offers up to 43% margin on your Barco tech refresh opportunities. It's also a great opportunity to pair other vendor trade-in programs for a complete room refresh.

What's in it for you?

- › Grow your ClickShare sales
- › Re-visit your existing install base
- › High margin, short sales cycle
- › In stock and ready to ship

What's in it for your customer?

- › Latest ClickShare features at an attractive price
- › Disposal of old hardware in an environmentally conscious way
- › ClickShare simplicity for employees and guests from the market leader in wireless collaboration

Claim up to 5 years' warranty with SmartCare

SmartCare offers your customers fast hardware replacement and expert support. When registered to Barco's XMS Cloud within 6 months of purchase, the unit's SmartCare warranty is automatically upgraded to 5-years coverage at no additional cost. Sadly, the challenging past few years may have caused your customers to overlook this feature. Great news is **from now until June 30, 2023**, you can help activate their SmartCare extended warranty on all existing C5/ C10/ CX-20/ CX-30/ CX-50 devices.
